Now enrolling Prep for 2016

If your child was born between 1 July 2010 and 30 June 2011 Scottville State School is the best place for your child to begin their education.

We have a fully air-conditioned Early childhood classroom, where prep children are engaged in planned learning experiences in a multi-age setting.

Our curriculum plan draws on early years philosophies to foster your child's development in a fun and engaging way.
Making Learning Fun

At Scottville, we recognise the importance of providing educational experiences that allow your child to develop positive attitudes to learning.

Our curriculum ensures that Prep children are engaged in activities supporting the five learning contexts:

- Play
- Real-life situations
- Investigations
- Routines and Transitions
- Focused learning and teaching

Learning happens in a fun and hands-on way, with children in Years 1 and 2 engaging in more structured learning experiences. Children participate in individual, small group and whole class activities and benefit from peer-tutoring opportunities in our multi-age setting.

Support Staff

Our Early Phase classes have full-time teacher aides to work with teachers in providing quality learning programs for your child.

Open Door Policy

At Scottville, we aim to provide a safe and supportive learning environment for your child.

Prep children have the opportunity to meet teachers and peers before the first day of school to become familiar with their new learning environment.

Parents and carers are encouraged to visit the classroom and see their children engaged in diverse learning experiences. Opportunities are provided for children to showcase their learning to parents and the community.

We value your support in providing an enjoyable and quality start to your child's education.

There is no better place to begin your child's education than in Prep at Scottville State School.
