During the last few weeks at Scottville we have been doing activities which build teamwork across the entire school. The students have been developing their positive self-talk and positive speech as well as being resourceful and working with others to achieve an end goal. Along the way we have had a lot of fun and learned that we can do anything we want if we work together as a team. In addition to these activities, students have been role playing the social skills of resilience, making friends and dealing with conflict through their drama lessons.

All up, this term has been jam-packed with events ranging from NAPLAN academic testing, celebrating State Education Week and launching new partnerships. In amongst all of that we also found time to strengthen our reading comprehension, numeracy and scientific skills, all of which has been assessed and will be reported on for the end of semester report card.

We would like to wish all our students and families a safe and enjoyable 2 week break at the end of the week and we will see you back, ready for more, in Term 3.

Lauren McGeorge
Principal

There was a reason to celebrate when Mr Boon kicked the footy to officially launch the initiative between Xstrata Coal, Education Qld and Catholic Education. The ceremony was attended by dignitaries and local school and community members and acknowledged the great work several people had done over the last few years to get the role up and running.
